

WEEK 1

EXERCISE 3

Algorithm on how to cook a potato omelet (with or without onions):

1. Grab all the required ingredients: one potato, five eggs, salt, pepper, olive oil.
2. Grab all kitchen utensils.
3. Boil potato for about 2 minutes and slice it.
4. Want the omelet with onions?
 - 4.1. Chop one onion and add them to the frying pan.
5. Repeat until 5 eggs have been cracked.
 - 5.1. Have 5 eggs been cracked?
 - 5.1.1. Continue to step 6.
 - 5.2. Else.
 - 5.2.1. Crack one egg.
 - 5.2.2. Place egg in egg bowl.
 - 5.2.3. The egg count is increased by one.
6. Season eggs with salt and pepper.
7. Add $\frac{1}{2}$ tablespoon oil in a frying pan.
8. Introduce potatoes and cook for a few minutes.
9. Add eggs to the pan.
10. Flip omelet in the pan with the help of a large plate.
11. Finish cooking and enjoy!
